During the second wave, the timing and extent of the restriction on human activities were determined by the state governments and not by the central government as was the case in the first wave. In 2021, the restrictions were not as strict as during phases 1 and 2 of the lockdown in 2020 (from March 24 to May 03 2020). People were allowed to commute for essential goods, medical services, takeout deliveries from restaurants, retail shops, e-commerce, taxi services (e.g., Ola and Uber), metro trains, and public transport with a limited number of buses and trains for migrants as well as the frontline staff who served during the lockdown, and airports were allowed with limited activity. The neighboring states (Uttar Pradesh, Haryana, Punjab, and Rajasthan) of Delhi did not impose a lockdown until April 30, 2021. Therefore, this period provides a unique opportunity to understand the effect of local versus transboundary emission sources on air quality in Delhi.

Most of the studies on the air quality of Delhi target the pollution sources in the late autumn season (October and November) because of the potential influence of large scale crop residue burning in upwind states of Haryana and Punjab (Kumar et al., 2020; Kulkarni et al., 2020) and meteo-

Lockdown Period and Information Sources

III. COVID-19:

This deadly virus covers almost 192 countries since its emergence in China (Wuhan) last December 2019. Like other countries in India, Indian Council of Medical Research (ICMR), Bharat biotech etc. are working for the development of vaccine of this novel virus.

3.1 Lockdown:

As stated by the medical experts, and experienced by us the lockdown is the best solution to avoid the wide spread of virus amongst the human being. In India, on the following periods, nationwide lockdown situation was implemented. Also to combat this epidemic, one day 'Janata Curfew' was observed on 22-03-2020.

Lockdown 1: 25-03-2020 to 14-04-2020 (21 days);

Lockdown 2: 15-04-2020 to 03-05-2020 (19 days);

Lockdown 3: 04-05-2020 to 17-05-2020 (14 days);

Lockdown 4: 18-05-2020 to 31-05-2020 (14 days);

Lockdown 5: 01-06-2020 to 30-06-2020 (30 days).

The emergency services of medical stores, hospitals, vegetables, grocery shops including milk products are remain opened during the whole lockdown period. Prior to execution of lockdown 3.0 time the GOI (Government of India) has classified all the districts of the state in 3 zones according to the number of affected people in the area and medical facilities viz. Green, Orange and Red then some sorts of relaxation in terms of opening of certain shops, services, factories in the allotted time was given to these zones. Also containment zones/hotspot centers and one more 'Buffer' zone are identified where drastic patients are noted. During this Lockdown third stage, central government had agreed and enacted on the move of starting of special trains (Shramik), buses, boats (Vandematram, Samudrasetu) and even airplane facility for the migrant laborers, students and travelers who stuck in other state/district/country to drop them at their native places. To fight against this crisis, Government has requested for financial assistance as a relief fund that will be useful for betterment of patients and then announced - 'Atmanirbhar Bharat' a smart financial package for boosting economic growth of the country in all the sectors. Further with the implementation of lockdown 5.0, some sorts of phased relaxation as phase I-III were issued as 'Unlock 1.0' and mandatory compulsion of lockdown at containment zones.

3.2 Precaution:

Following major precocious measures are undertaken to limit the constant growth of novel Corona pandemic as per the recommendation of medical sources/advisers-

- Washing of hands with sanitizer, soapy water etc. at regular intervals of time
- Use of masks (N-95) and hand gloves
- Social distancing
- Use of Aarogya Setu app
- Medical tools like PPE (Personal Protective Equipment) kit, testing labs, ventilator, oxygen cylinder etc. for the infected patients
- Home and institutional quarantine for the symptoms of corona patients

- Identification of hotspots, survey to crowded area and medical inspection of the citizens
- Sanitization of road, building, surrounding areas etc.

3.3 Impact:

The major impact against this corona lockdown are enlisted below-

- Declined economic cycle
- Reduction rate in unemployment
- No direct physical communication/interaction
- Restriction in travelling/places of importance
- Live with available life resources like food, water and cloth etc.
- Limited production of sanitizer, mask and other medical accessories etc.

IV. INFORMATION SOURCES- ACADEMIC, LEARNING AND EXTENSION ACTIVITIES IN LOCKDOWN PERIOD:

Against the dangerous impact of this virus, the HEIs (higher educational institutions) like universities, colleges, training centers like ASC/HRDC etc., associations and other come forward with innovative academic online programs and plans that make the best use of home leisure time in to academic and extension work with the motto 'access/research never stop'. Due to this academicians are engaged with these information sources activities and they are familiar with the online learning methods/tools, techniques and interaction that will be useful in their professional/personal development and may use himself as an 'available resource' for the teaching community/society. Certain associations/groups are also organized such novel online events.

The notice about the publicity of the event was made through whatsapp, e-mail, social network platforms with the registration and webinar / meeting joining hyper link/ID/number/password, date-time etc. The invited resource person/expert may be of Indian/foreign origin. After completion of this course they provide participant's digital/e-certificate after submitting online feedback and in some programs participant's online poll/score at their registered e-mail address with/without registration fees. The online academic activities conducted by these HEIs and others are compiled and presented in the following Tables 1-4 with the targeted academic task fulfilled by the academicians under 'work from home' as suggested. Only the programs having academic values/work and are in English language are considered here.

4.1 Methodology Adopted:

To know the online events information, several Whatsapp groups viz. Library-2020, LIS webinar alert, MUCLA-Maharashtra, MUCLA Kolhapur, FAMI warriors, SUCLA, SUK teachers, University teachers, KRC teachers Maharashtra and UGC NTA CBSE NET SET KOHA etc., forwarded e-mail alerts and Telegram channel - LIS research scholars forum etc. are browsed daily during the lockdown period from 25th March 2020 up to 1st June 2020, then noted these event details in different categories and compiled the required data/information. As per the notification/subject of the event the academic tasks are divided into 7 groups like Webinar, FDP, Quiz, Workshop, Training, STC and other
